Education

Computer Science | September 2022 – Present

Honors Bachelor of Science, Computer Science Major (Lakehead University/Georgian College program)

Computer Programming and Analysis | September 2022 – September 2024

Computer Program and Analysis, Georgian College

Work Experience

Data Analyst Intern| York Region | April 2024 - September 2024

- Collaborated on a Power App for tracking data requests, enhancing efficiency for paramedic staff.
- Gathered and aligned app requirements with organizational needs.
- Integrated data sources for a user-friendly interface for request submission and management.
- Managed Power Apps, Automate flows, SharePoint databases, and BI KPIs; improved data quality with SQL, Python, and Azure.

Full Stack Developer Internship | Budfor | April – September 2023

- Designed backend user interactions with SQL Database and PHP for efficient data handling.
- Created APIs and RESTful services to enable smooth front-end and back-end communication.
- Integrated front-end frameworks with back-end systems, fulfilling technical and user needs.

Programming Instructor/Coordinator| Real Programming 4 Kids | March – May 2023

- Conducted online interactive lessons via Zoom, providing comprehensive instruction in computer programming languages including Java, Python, and other relevant languages.
- Guided students in building games designed by RP4K, fostering creativity and critical thinking skills.
- Collaborated with RP4K's Sales Team to support customer retention efforts and contribute to the growth of the program.
